

The Philippine Season Wheel

DRY SEASON

December - May

DRY SEASON

- More sunlight, higher temperatures
- Outdoor activities like kite-flying, biking, and sports are popular
- People conserve water due to limited rainfall

WET SEASON

June - November

WET SEASON

- Increased rainfall, higher humidity
- People read, study, and spend time indoors to avoid heavy rain
- Rain gear and flood precautions are common

WHY CERTAIN ACTIVITIES ARE MORE COMMON DURING EACH SEASON

The different climate conditions of each season influence the activities people do. Farmers reinvigorate dry and wet months to grow crops. Outdoor activities are more frequent during dry months, while rainy weather encourages people to stay indoors. Filipinos
